

Home Is Where You Make It

Brian Maher / Luke Deuce

I'm that travelin troubadour on the road and playin for
The fortune fame and whatever life brings
Makin music is what I do
Even when I'm far from you, you call to say "I love you"
And I feel like you're here with me

*Home is where you make it
In your arms that's where I found the truth
Home is where you make it
Girl, that's why I made my home with you*

I love when the fans clap and tell me they love my songs
Tips in a jar that's what keeps me going
This picture of you on my dash tells me what I got
When I get back when these four wheels stop rolling

*Home is where you make it
In your arms that's where I found the truth
Home is where you make it
Girl that's why I made my home with you*
