

Cowboys And Dreamers

Luke Deuce, JK Nick Nichols, Kent Maxson

Been out on the plains and rode high mountain ranges
Where most dreamers go to get lost in the stars
Up at the top where the world never changes
I find relief from my pain and these scars

CHORUS

*Cowboys and dreamers are the only ones free
They see the world that we all want to see
Green grassy plains for a cowboy like me
Unending skies for a dreamer to dream*

Way out west where the wild mustangs roam
Now that's a place anyone could call home
Where fences are only for cowboys and thieves
And the mind can slip through like a warm summer breeze

CHORUS

*Cowboys and dreamers are the only ones free
They see the world that we all want to see
Green grassy plains for a cowboy like me
Unending skies for a dreamer to dream*
