

Lake Day Sunset

Luke Deuce

Your sun-dried hair on my sunburnt shoulder
My dog's asleep, ain't no need to hold her
The sound ice makes in an empty yeti
Traffic's all gone but we're still not ready to go

CHORUS

*That Carolina sky's about to put on a show
Sun sinking over the mountains oh so slow
Those cotton candy colors on the still lake water
Holding you tight cause there ain't no other
It's a lake day sunset show*

Time to head home, the air's cooler than the water
Take it real slow cause I think I'm smart
Stretching that sun to its last limit
Make the day last because you're in it
I'm still not ready to go

CHORUS

When summer's gone, I hope you'll miss me
Finishing school's now within your reach
My collar and my heart will both be blue
Til summer comes back and you do too
Still not ready to go

CHORUS
