

I Wish My Memories Had Been with You

Luke Deuce, JK Nick Nichols, Kent Maxson

She told me that we were gonna be forever
But forever ain't as long as you think
Never ever thought that we wouldn't be together
But, time has a way of changing everything

CHORUS

*I wish my memories had been with you
You're the one who makes my dreams come true
Finding your love has been way overdue
Girl, I just wish my memories were with you*

When one door closes another one will open
But you don't know what's behind it till you try
God finds a way to heal the broken hearted
I'm so fortunate you came into my life

CHORUS

*I wish my memories had been with you
You're the one who makes my dreams come true
Finding your love has been way overdue
Girl, I just wish my memories were with you*

BRIDGE:

So many times I felt something was missing
The only thing that was missing was you

CHORUS

*I wish my memories had been with you
You're the one who makes my dreams come true
Finding your love has been way overdue
Girl, I just wish my memories were with you*
