

# What If I'd Try

Luke Deuce

---

Every day I wake up and a day goes by  
And I wonder, "What if I tried?"  
I wish I could go back, turn the hands of time  
Maybe straighten out these tracks in my mind

Every day I seem to let time slip by  
That's when people start to ask me how and why  
People are telling me to stop wasting time  
Guess I gotta get out there and try

## *CHORUS*

*But now time has struck me from behind  
Got to step up and be a man to prove my family right  
Got to be the best me that I can  
And stop asking myself "What if I tried?" again*

Well daddy gave me the keys to that old 1500 hand-me-down  
I didn't know what to say as I drove it around  
Now I can see that Dad he trusts me a lot  
Better step up if I want to keep what I've got

## *CHORUS*

Bridge  
Well, I better get a grip on that neck  
'Cause I'm gonna play this guitar 'til I take my last breath

## *CHORUS*
