

One Night Man

Luke Deuce

Well, I frequent all the honky tonks most every Friday night
Close them down one by one but she's nowhere in sight
I get offers by the dozen from the dance floor and the bar
But there's just one girl in this whole world
I'm willing to take home

CHORUS

*I'm not a one night man
Who falls for one night stands
And Nothing short of forever, just won't do
To be my next first date
Darlin' you'll just have to wait
'Cause I'm still crying over someone just like you*

We can have sweet conversations, 'til they turn the house lights on
Get to know each other while the jukebox spins a song
Maybe things will get better, one drink at a time
But unless this is forever, then this is the end of the line

CHORUS
