

Wherever You're Going

Luke Deuce

Goodbye for now, but it's not farewell
This is something only time can tell
Your bags are packed and you're ready to set your sails
You've always been a dreamer
So go chase that rambling fever

Chorus

*Just want you to know that every road you go down
Wherever your heart takes you, I won't slow you down
Whatever that you're looking for you can count on one thing
Wherever that you're going, that's where I'll be*

You sent a postcard of those big cities
Those bright lights sure are pretty
I keep pretending you're still with me
Girl, I hope you remember
Even though we're still together

Chorus 2x
